

Using genius scan

1. In the app click the camera button

<= Click the camera button.

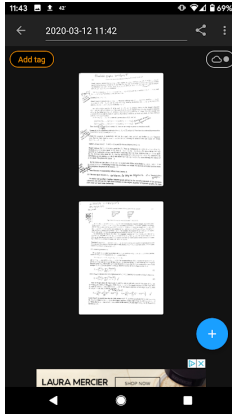

2. Like taking a regular photo click the orange button at the bottom center

Click the camera button at the bottom, to take pictures of multiple pages, just click more than once!

Click the check mark on the bottom right when you are done.

3. When you have finished scanning all of your pages, click the check mark.
4. Use the share button to email the file to yourself (see next page).

<= Share button is on the top. Can rename the file here.

5. Upload your file to Blackboard under class preparations.
